

Division V/Caribou Soil Conservation District  
 Technical Assistance Request  
 For FY2015

**Narrative of Projects:**

*Include Local support, Plans for publicizing, Permitting, and maintaining the project.*

Trout Creek - The Trout Creek project focuses on the relocation of a corral site and the reconstruction of approximately 500 feet of stream channel. It involves the cooperation of the Environmental Coordinating Committee (\$30,000.00), and has the support of Caribou County, Idaho Fish & Game, and the Idaho Soil & Water Conservation Commission. This project is unique as it is funded through the State SRF-319 Program.

Bear Whiskey - The Bear River/Whiskey Creek Project called for the removal of an old Dairy Facility which sat directly on top of Whiskey Creek as well as an off-stream watering project on the Middle Bear. This project is in its final year and TA is needed on the Stream Channel Construction and the new Corral being built.

Upper Portneuf - The Upper Portneuf River is a project which is being applied for in this grant cycle. The project calls for nearly 3 miles of riparian fencing on both sides of the Upper Portneuf River. It also provides cross fencing and a large grazing management plan at the south end of the Chesterfield Valley. There will be 5 off-stream watering facilities installed associated with this project as well. This project will assist 7 different landowners within its scope of work.

**Engineering Requests**

*Include Surveying, Design, and Construction Inspections.*

Bear Whiskey - 40 hours, construction site visits, site work, adjustments to design, staking out the design, landowner visits.

Trout Creek - 200 hours, 4 corral and water system designs, site visits, design stake outs, landowner visits.

<b>Project or Tasks:</b>	<b>Hours needed without Travel</b>
<b>Technical</b>	
1) Trout Creek	40
2) Pebble Creek Irrigators	80
